

A special thanks to Julie Kraft for the specimen photos.

- *Perennial*
- *Four petaled white flowers*
- *Blue-green leaves, lance shaped, clasp stem*
- *May grow up to two feet tall*

WHITE TOP

B LIST SPECIES

White top or hoary alyssum belongs in the mustard family. It spreads via seed and roots and can crowd out other species. It is an early season weed and blooms in early spring and becomes dormant until fall when it accumulates photosynthate for overwintering. Please report this species to the Weed and Pest Supervisor at (970)264-6773 or via eddmaps.org.
