State of Colorado

REVISED 2018

FORWARD

Because of the significant mobility of today's traffic and the influx of motorists from many areas, every driver has a right to expect the rules governing the movement of vehicles and pedestrians on streets and highways are clearly defined and reasonably uniform throughout the state and the nation.

The General Assembly of the State of Colorado has recognized that conflicts between the state's traffic laws and municipal traffic ordinances lead to inconsistencies in the movement of traffic and has strengthened the requirements for uniformity of traffic regulations in the following terms:

"This article constitutes the uniform traffic code throughout the state and in all political subdivisions and municipalities therein". (Source: C.R.S. § 42-4-110(1))

"All local authorities may, in the manner prescribed in article 16 of title 31, C.R.S., or in article 15 of title 30, C.R.S., adopt by reference all or any part of a model traffic code which embodies the rules of the road and vehicle requirements set forth in this article and such other additional regulations as are provided for in C.R.S. § 42-4-111; except that, in the case of state highways, any such additional regulations shall have the approval of the department of transportation". (Source: C.R.S. § 42-4-110(1)(b))

"No local authority shall adopt, enact, or enforce on any street which is a state highway any ordinance, rule, or resolution which alters or changes the meaning of the "rules of the road" or is otherwise in conflict with the provisions of this article. For the purpose of this section, the "rules of the road" shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to obey without the benefit or necessity of official traffic control devices as declared in C.R.S. § 42-4-603(2)." (Source: C.R.S. § 42-4-110(1)(c))

These provisions leave little doubt that the basic driving rules are expected to be uniform statewide for the protection of Colorado drivers and pedestrians. If state laws and local government traffic codes are to serve their purpose they must complement one another and be given the widest possible publicity as companion documents.

The National Committee on Uniform Traffic Laws and Ordinances points out that it is not the proper purpose of traffic legislation to impose unnecessary or unreasonable restrictions on street or highway traffic, but to ensure, as far as this can be done by law and its enforcement, that traffic shall move smoothly, efficiently and safely; that no legitimate user of the street or highway, whether in a vehicle or on foot, shall be killed, injured or frustrated in such use by the improper behavior of others.

Through the cooperative efforts of both state and local governments, the "Model Traffic Code for Colorado" has been developed to make available a specimen set of motor vehicle and traffic regulations that track state law.

C.R.S. § 42-4-105, states that all traffic control devices placed or maintained by local authorities shall conform to the most recent edition of the federal “Manual on Uniform Traffic Control Devices” (MUTCD) and the state supplement thereto.

Traffic regulatory areas preempted by state law have not been made part of the Code. Local governments are urged to bring their traffic ordinances into harmony with the current Code.

Local governments that adopt the Code by reference are cautioned not to make any changes or additions which are in conflict with state law. However, the adopting local governments are at liberty to delete any parts, articles, or sections which are deemed to be inapplicable. A specimen ordinance and specimen public notices for adopting the Code by reference will be found in the Appendix.

The following official state documents work in tandem to provide a uniform system of traffic regulation and accepted traffic engineering practices for greater operational efficiency and safety:

- Colorado Revised Statutes (C.R.S.), Title 42, Article 4 - Uniform traffic code for the State of Colorado. Updated periodically to correlate with national model legislation.
- Model Traffic Code for Colorado – Model ordinance embodies provisions of Colorado Law applicable to driving in municipalities and counties in a form that can be adopted by reference.
- Colorado Drivers Manual – Drivers’ handbooks authorized by Colorado statute. Issued by the Colorado Department of Revenue (Division of Motor Vehicles). Traffic control text and illustrations developed by the Colorado Department of Transportation.
- Manual on Uniform Traffic Control Devices (MUTCD) – Manual of Federal Highway Administration approved traffic control devices. Updated periodically and adopted by the Transportation Commission as required by Colorado Law.

Such temporary closing of the highway or portion thereof and the routing of traffic along other roads shall not become effective until official traffic control devices are erected giving notice of the restrictions, and, when such devices are in place, no driver shall disobey the instructions or directions thereof.

(b) Local authorities, within their respective jurisdictions, may provide for the temporary closing to vehicular traffic of any portion of a highway during a specified period of the day for the purpose of celebrations, parades, and special local events or civil functions when in the opinion of said authorities such temporary closing is necessary for the safety and protection of persons who are to use that portion of the highway during the temporary closing.

(c) No local authority shall adopt, enact, or enforce on any street which is a state highway any ordinance, rule, or resolution which alters or changes the meaning of any of the “rules of the road” or is otherwise in conflict with the provisions of this article. For the purpose of this section, the “rules of the road” shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to obey without the benefit or necessity of official traffic control devices as declared in section 603(2).

(d) In no event shall local authorities have the power to enact by ordinance regulations governing the driving of vehicles by persons under the influence of alcohol or of a controlled substance as defined in C.R.S. § 18-18-102(5), or under the influence of any other drug to a degree that renders any such person incapable of safely operating a vehicle, or whose ability to operate a vehicle is impaired by the consumption of alcohol or by the use of a controlled substance as defined in section C.R.S. § 18-18-102(5), or any other drug, the registration of vehicles and the licensing of drivers, the duties and obligations of persons involved in traffic accidents, and vehicle equipment requirements in conflict with the provisions of this article; but said local authorities within their respective jurisdictions shall enforce the state laws pertaining to these subjects, and in every charge of violation the complaint shall specify the section of state law under which the charge is made and the state court having jurisdiction.

(5) The general assembly declares that the adjudication of class A and class B traffic infractions through the county court magistrate system was not intended to create a conflict between the provisions of this article and municipal ordinances covering the same subject matter as this article nor was it intended to require or prohibit the decriminalization of municipal ordinances covering the same subject matter as this article. Municipalities may continue to enforce violations of such ordinances through municipal court even though similar state offenses are enforced through the magistrate system established under this article.

(6)(a) The general assembly hereby finds that the use of automated driving systems will help people who may have difficulty driving, including people who are elderly and people with disabilities, gain access to goods and services essential to daily life. This access requires traveling across and in multiple jurisdictions. Therefore, the regulation of automated driving systems is a matter of statewide concern.

(b) A state agency or a political subdivision of the state shall not adopt or enforce a policy, rule, or ordinance that sets standards for an automated driving system that are different from the standards set for a human driver.

(1.7)(a) An automated vehicle identification system shall not be used under this subsection (1.7) unless maintenance, repair, or construction is occurring at the time the system is being used.

If a penalty assessment notice or summons and complaint for a violation detected using an automated vehicle identification system is personally served, the state, a county, a city and county, or a municipality may only charge the actual costs of service of process that shall be no more than the amount usually charged for civil service of process.

These exemptions shall not relieve the driver of a snowplow from the duty to drive with due regard for the safety of all persons, nor shall these exemptions protect the driver of a snowplow from the consequences of a reckless or careless disregard for the safety of others.

(6) Any person who violates any provision of this section commits a class B traffic infraction.

The windshield shall allow seventy percent light transmittance.

(II) The provisions of this paragraph (a) shall not apply to the windows to the rear of the driver, including the rear window, on any motor vehicle; however, if such windows allow less than twenty-seven percent light transmittance, then the front side windows and the windshield on such vehicles shall allow seventy percent light transmittance.

(III) The material does not reflect sunlight or headlight glare into the eyes of occupants of oncoming or preceding vehicles to any greater extent than the windshield without the material.

(c) Nothing in this subsection (1) shall be construed to prevent the use of any window which is composed of, covered by, or treated with any material or component in a manner approved by federal statute or regulation if such window was included as a component part of a vehicle at the time of the vehicle manufacture, or the replacement of any such window by such covering which meets such guidelines.

(d) No material shall be used on any window in the motor vehicle that presents a metallic or mirrored appearance.

except that it shall be permissible to use farm machinery with tires having protuberances which will not injure the highway; and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(4) The department of transportation and local authorities in their respective jurisdictions, in their discretion, may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Code.

(5)(a) No person shall drive or move a motor vehicle on any highway unless such vehicle is equipped with tires in safe operating condition in accordance with this subsection (5) and any supplemental rules and regulations promulgated by the executive director of the department.

This local government shall place and maintain such traffic control devices, conforming to the "Manual of Uniform Traffic Control Devices" and specifications, upon streets and highways as it deems necessary to indicate and to carry out the provisions of this Code or to regulate, warn, or guide traffic.

602. Local traffic control devices.

(1) No local authority shall erect or maintain any stop sign or traffic control signal at any location so as to require the traffic on any state highway to stop before entering or crossing any intersecting highway unless approval in writing has first been obtained from the department of transportation.

(2) Where practical, no local authority shall maintain three traffic control signals located on a roadway so as to be within one minute's driving time (to be determined by the speed limit) from any one of the signals to the other without synchronizing the lights to enhance the flow of traffic and thereby reduce air pollution.

603. Obedience to official traffic control devices.

(1) No driver of a vehicle shall disobey the instructions of any official traffic control device including any official hand signal device placed or displayed in accordance with the provisions of this Code unless otherwise directed by a police officer subject to the exceptions in this Code granted the driver of an authorized emergency vehicle.

(2) No provision of this Code for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

(3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this Code, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this Code and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this Code unless the contrary is established by competent evidence.

604. Traffic control signal legend.

(1) If traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the traffic control manual adopted by the department of transportation, only the colors green, yellow, and red shall be used, except for special pedestrian-control signals carrying a word or symbol legend as provided in section 802, and said lights, arrows, and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication:

(I) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection and to pedestrians lawfully within an adjacent crosswalk at the time such signal is exhibited.

(II) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(III) Unless otherwise directed by a pedestrian-control signal as provided in C.R.S. § 42-4-802, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication:

(I) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter.

(II) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in section 802, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

(c) Steady red indication:

(I) Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that: (A) Such vehicular traffic, after coming to a stop and yielding the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn, unless state or local road authorities within their respective jurisdictions have by ordinance or resolution prohibited any such right turn and have erected an official sign at each intersection where such right turn is prohibited; and, (B) Such vehicular traffic, when proceeding on a one-way street and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right-of-way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this sub-subparagraph (B) if local authorities have by ordinance prohibited any such left turn and erected a sign giving notice of any such prohibition at each intersection where such left turn is prohibited; and (C) To promote uniformity in traffic regulation throughout the state and to protect the public peace, health, and safety, the general assembly declares that no local authority shall have any discretion other than is expressly provided in this subparagraph (I).

(II) Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(III) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

(IV) Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(d) Non-intersection signal: In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) Lane-use-control signals: Whenever lane-use-control signals are placed over the individual lanes of a street or highway, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and apply to drivers of vehicles as follows:

(I) Downward-pointing green arrow (steady): A driver facing such signal may drive in any lane over which said green arrow signal is located.

(II) Yellow “X” (steady): A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid if possible occupying that lane when the steady red “X” signal is exhibited.

(III) Yellow “X” (flashing): A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

(IV) Red “X” (steady): A driver facing such signal shall not drive in any lane over which said red signal is exhibited.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

(a) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution.

(2) Omitted.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

606. Display of unauthorized signs or devices.

(1) No person shall place, maintain, or display upon or in view of any highway any unauthorized sign, signal, marking, or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising. The provisions of this section shall not be deemed to prohibit the use of motorist services information of a general nature on official highway guide signs if such signs do not indicate the brand, trademark, or name of any private business or commercial enterprise offering the service, nor shall this section be deemed to prohibit the erection upon

private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(2) Every such prohibited sign, signal, or marking is declared to be a public nuisance, and the authority having jurisdiction over the highway is empowered to remove the same or cause it to be removed without notice.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

(4) The provisions of this section shall not be applicable to informational sites authorized under C.R.S. § 43-1-405.

(b) A person who violates any provision of paragraph (a) of this subsection (2) and thereby proximately causes bodily injury to another person commits a class 1 misdemeanor traffic offense. In addition to any other penalty imposed by law, the court shall impose a fine of one thousand dollars.

608. Signals by hand or signal device.

(1) Any stop or turn signal when required as provided by C.R.S. § 42-4-903 shall be given either by means of the hand and arm as provided by C.R.S. § 42-4-609 or by signal lamps or signal device of the type approved by the department, except as otherwise provided in subsection (2) of this section.

(2) Any motor vehicle in use on a highway shall be equipped with, and the required signal shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of such motor vehicle exceeds twenty-four

inches or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds fourteen feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

610. Unauthorized insignia. No owner shall display upon any part of the owner's vehicle any official designation, sign, or insignia of any public or quasi-public corporation or municipal, state, or national department or governmental subdivision without authority of such agency or any insignia, badge, sign, emblem, or distinctive mark of any organization or society of which the owner is not a bona fide member or otherwise authorized to display such sign or insignia. Any person who violates any provision of this section commits a class B traffic infraction.

611. Paraplegic persons or persons with disabilities - distress flag.

(1) Any paraplegic person or person with a disability when in motor vehicle distress is authorized to display by the side of such person's disabled vehicle a white flag of approximately seven and one-half inches in width and thirteen inches in length, with the letter "D" thereon in red color with an irregular one-half inch red border. Said flag shall be of reflective material so as to be readily discernible under darkened conditions, and said reflective material must be submitted to and approved by the department of transportation before the same is used.

controlling entrance to a through street or highway from a stop street or highway, as provided under section 703, shall apply until a police officer assumes control of traffic or until normal operation is resumed. In the event that any traffic control signal at a place other than an intersection should cease to operate or should malfunction as set forth in this section, drivers may proceed through the inoperative or malfunctioning signal only with caution, as if the signal were one of flashing yellow.

(2) Whenever a pedestrian faces a pedestrian-control signal as provided in section 802 which is inoperative or which remains on “Don’t Walk” or “Wait” during several time cycles, such pedestrian shall not enter the roadway unless the pedestrian can do so safely and without interfering with any vehicular traffic.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

613. Omitted.

614. Designation of highway maintenance, repair, or construction zones - signs - increase in penalties for speeding violations.

(1)(a) If maintenance, repair, or construction activities are occurring or will occur within four hours on a portion of a state highway, the department of transportation may designate such portion of the highway as a highway maintenance, repair, or construction zone. Local authorities shall erect or place a second sign after such zone indicating that the increased penalties for certain traffic violations are no longer in effect. A maintenance, repair, or construction zone begins at the location of the sign indicating that increased penalties are in effect and ends at the location of the sign indicating that the increased penalties are no longer in effect.

(3) Signs used for designating the beginning and end of a maintenance, construction, or repair zone shall conform to department of transportation requirements. Local authorities may display such signs on any fixed, variable, or movable stand. Local authorities may place such a

The state or local government having jurisdiction over the placement of traffic signs and traffic control devices in the school zone area shall designate when the area will be deemed to be a school zone for the purposes of this section. In making such designation, the state or local government shall consider when increased penalties are necessary to protect the safety of school children.

(3) This section does not apply if the penalty and surcharge for a violation has been doubled pursuant to section 614 because such violation also occurred within a highway maintenance, repair, or construction zone.

616. Wildlife crossing zones - increase in penalties for moving traffic violations.

(1) Except as described by subsection (4) of this section, a person who commits a moving traffic violation in a wildlife crossing zone is subject to the increased penalties and surcharges imposed by C.R.S. § 42-4-1701(4) (d.5).

(II) If no sign exists that complies with subparagraph (I) of this paragraph (b), the distance indicated on the sign indicating the beginning of the wildlife crossing zone; or

(III) If no sign exists that complies with subparagraph (I) or (II) of this paragraph (b), one-half mile beyond the sign indicating the beginning of the wildlife crossing zone.

(3)(a) If the department of transportation erects a sign that indicates that a person is about to enter a wildlife crossing zone pursuant to section 118, the department of transportation shall:

(I) Establish the times of day and the periods of the calendar year during which the area will be deemed to be a wildlife crossing zone for the purposes of this section; and

(II) Ensure that the sign indicates the times of day and the periods of the calendar year during which the area will be deemed to be a wildlife crossing zone for the purposes of this section.

(b) In erecting signs as described in paragraph (a) of this subsection (3), the department of transportation, pursuant to section 118, shall not erect signs establishing a lower speed limit for more than one hundred miles of the public highways of the state that have been established as wildlife crossing zones.

(4) This section shall not apply if:

(a) The person who commits a moving traffic violation in a wildlife crossing zone is already subject to increased penalties and surcharges for said violation pursuant to section 614 or 615;

(b) The sign indicating that a person is about to enter a wildlife crossing zone does not indicate that increased traffic penalties are in effect in the zone; or

(c) The person who commits a moving traffic violation in a wildlife crossing zone commits the violation during a time that the area is not deemed by the department of transportation to be a wildlife crossing zone for the purposes of this section.

PART 7 RIGHTS-OF-WAY

701. Vehicles approaching or entering intersection.

(1) When two vehicles approach or enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

(2) The foregoing rule is modified at through highways and otherwise as stated in sections 702 to 704.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

702. Vehicle turning left. The driver of a vehicle intending to turn to the left within an intersection or into an alley, private road, or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. Any person who violates any provision of this section commits a class A traffic infraction.

703. Entering through highway - stop or yield intersection.

(1) The department of transportation and local authorities, within their respective jurisdictions, may erect and maintain stop signs, yield signs, or other official traffic control devices to designate through highways or to designate intersections or other roadway junctions at which vehicular traffic on one or more of the roadways is directed to yield or to stop and yield before entering the intersection or junction. In the case of state highways, such regulations shall be subject to the provisions of C.R.S. § 43-2-135(1) (g).

(2) Every sign erected pursuant to subsection (1) of this section shall be a standard sign adopted by the department of transportation.

(3) Except when directed to proceed by a police officer, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After having stopped, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection or junction of roadways.

(4) The driver of a vehicle approaching a yield sign, in obedience to such sign, shall slow to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways; except that, if a driver is involved in a collision with a vehicle in the intersection or junction of roadways after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of the driver's failure to yield right-of-way.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

704. Vehicle entering roadway. The driver of a vehicle about to enter or cross a roadway from any place other than another roadway shall yield the right-of-way to all vehicles approaching on the roadway to be entered or crossed. Any person who violates any provision of this section commits a class A traffic infraction.

705. Operation of vehicle approached by emergency vehicle - operation of vehicle approaching stationary emergency vehicle.

(1) Upon the immediate approach of an authorized emergency vehicle making use of

audible or visual signals meeting the requirements of section 213 or 222, the driver of every other vehicle shall yield the right-of-way and where possible shall immediately clear the farthest left hand lane lawfully available to through traffic and shall drive to a position parallel to, and as close as possible to, the right-hand edge or curb of a roadway clear of any intersection and shall stop and remain in that position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

(2)(a) A driver in a vehicle shall exhibit due care and caution and proceed as described in subsections (2)(b) and (2)(c) of this section when approaching or passing;

(I) A stationary authorized emergency vehicle that is giving a visual signal by means of flashing, rotating, or oscillating red, blue, or white lights as permitted by C.R.S. §§ 42-4-213 or 42-4-222;

(II) A stationary towing carrier vehicle that is giving a visual signal by means of flashing, rotating, or oscillating yellow lights; or

(III) A stationary public utility service vehicle that is giving a visual signal by means of flashing, rotating, or oscillating amber lights.

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle is located, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in subsection (2)(c) of this section.

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle is located, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in subsection (2)(b) of this section, is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the stationary authorized vehicle, stationary towing carrier vehicle, or stationary public utility service vehicle; weather conditions, road conditions, and vehicular or pedestrian traffic and proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(2.5)(a) A driver in a vehicle that is approaching or passing a maintenance, repair, or construction vehicle that is moving at less than twenty miles per hour shall exhibit due care and caution and proceed as described in paragraphs (b) and (c) of this subsection (2.5).

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary or slow-moving maintenance, repair, or construction vehicle is located, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving

lane apart from the vehicle, unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in paragraph (c) of this subsection (2.5).

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary or slow-moving maintenance, repair, or construction vehicle is located, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in paragraph (b) of this subsection (2.5), is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the stationary or slow-moving maintenance, repair, or construction vehicle, weather conditions, road conditions, and vehicular or pedestrian traffic, and shall proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(2.6)(a) A driver in a vehicle that is approaching or passing a motor vehicle where the tires are being equipped with chains on the side of the highway shall exhibit due care and caution and proceed as described in paragraphs (b) and (c) of this subsection (2.6).

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where chains are being applied to the tires of a motor vehicle, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the vehicle, unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in paragraph (c) of this subsection (2.6).

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where chains are being applied to the tires of a motor vehicle, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in paragraph (b) of this subsection (2.6), is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the motor vehicle where chains are being applied to the tires, weather conditions, road conditions, and vehicular or pedestrian traffic, and shall proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(3)(a) Any person who violates subsection (1) of this section commits a class A traffic infraction.

(II) If the person violates subsection (2) of this section and the person's actions are the proximate cause of bodily injury to another person, the person commits a class 1 misdemeanor and shall be punished as described in C.R.S. § 18-1.3-501.

(III) If the person violates subsection (2) of this section and the person's actions are the proximate cause of the death of another person, the person commits a class 6 felony and shall be punished as described in C.R.S. § 18-1.3-401.

706. Omitted.

707. Omitted.

708. Omitted.

709. Stop when traffic obstructed. No driver shall enter an intersection or a marked crosswalk or drive onto any railroad grade crossing unless there is sufficient space on the other side of the intersection, crosswalk, or railroad grade crossing to accommodate the vehicle the driver is operating without obstructing the passage of other vehicles, pedestrians, or railroad trains, notwithstanding the indication of any traffic control signal to proceed. Any person who violates any provision of this section commits a class A traffic infraction.

710. Emerging from or entering alley, driveway, or building.

(1) The driver of a vehicle emerging from an alley, driveway, building, parking lot, or other place, immediately prior to driving onto a sidewalk or into the sidewalk area extending across any such alleyway, driveway, or entranceway, shall yield the right-of-way to any pedestrian upon or about to enter such sidewalk or sidewalk area extending across such alleyway, driveway, or entranceway, as may be necessary to avoid collision, and when entering the roadway shall comply with the provisions of section 704.

(2) The driver of a vehicle entering an alley, driveway, or entranceway shall yield the right-of-way to any pedestrian within or about to enter the sidewalk or sidewalk area extending across such alleyway, driveway, or entranceway.

711. Driving on mountain highways.

(1) The driver of a motor vehicle traveling through defiles or canyons or on mountain highways shall hold such motor vehicle under control and as near to the right-hand edge of the highway as reasonably possible and, except when driving entirely to the right of the center of the roadway, shall give audible warning with the horn of such motor vehicle upon approaching any curve where the view is obstructed within a distance of two hundred feet along the highway.

(2) On narrow mountain highways with turnouts having a grade of six percent or more, ascending vehicles shall have the right-of-way over descending vehicles, except where it is more practicable for the ascending vehicle to return to a turnout.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

712. Driving in highway work area.

(1) The driver of a vehicle shall yield the right-of-way to any authorized vehicle or pedestrian engaged in work upon a highway within any highway construction or maintenance work area indicated by official traffic control devices.

(2) The driver of a vehicle shall yield the right-of-way to any authorized service vehicle engaged in work upon a highway whenever such vehicle displays flashing lights meeting the requirements of section 214.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

713. Yielding right-of-way to transit buses - definitions - penalty.

(1) As used in this section, unless the context otherwise requires:

(a) “Public mass transit operator” has the same meaning as in C.R.S. § 43-1-102 (5).

(b) “Transit bus” means a bus operated by a public mass transit operator.

(2) Drivers of vehicles in the same lane of traffic and behind a transit bus shall yield the right-of-way to the bus if:

(a) The driver of the transit bus, after stopping to allow passengers to board or exit, is signaling an intention to enter a traffic lane; and

(b) A yield sign as described in subsection (3) of this section is displayed and illuminated on the back of the transit bus.

(4) This section does not require a public mass transit operator to install yield signs as described in subsection (3) of this section on transit buses operated by the public mass transit operator.

(5) This section does not relieve a driver of a transit bus from the duty to drive with due regard for the safety of all persons using the roadway.

PART 8 PEDESTRIANS

801. Pedestrian obedience to traffic control devices and traffic regulations.

(1) A pedestrian shall obey the instructions of any official traffic control device specifically applicable to the pedestrian, unless otherwise directed by a police officer.

(2) Pedestrians shall be subject to traffic and pedestrian-control signals as provided in sections 604 and 802 (5).

(3) At all other places, pedestrians shall be accorded the privileges and shall be subject to the restrictions stated in this Code.

(4) Any person who violates any provision of this section commits a class B traffic infraction.

802. Pedestrians' right-of-way in crosswalks.

(1) When traffic control signals are not in place or not in operation, the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

(2) Subsection (1) of this section shall not apply under the conditions stated in section 803.

(3) No pedestrian shall suddenly leave a curb or other place of safety and ride a bicycle, ride an electrical assisted bicycle, walk, or run into the path of a moving vehicle that is so close as to constitute an immediate hazard.

(4) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

(5) Whenever special pedestrian-control signals exhibiting "Walk" or "Don't Walk" word or symbol indications are in place, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and require as follows:

(a) “Walk” (steady): While the “Walk” indication is steadily illuminated, pedestrians facing such signal may proceed across the roadway in the direction of the signal indication and shall be given the right-of-way by the drivers of all vehicles.

(b) “Don’t Walk” (steady): While the “Don’t Walk” indication is steadily illuminated, no pedestrian shall enter the roadway in the direction of the signal indication.

(c) “Don’t Walk” (flashing): Whenever the “Don’t Walk” indication is flashing, no pedestrian shall start to cross the roadway in the direction of such signal indication, but any pedestrian who has partly completed crossing during the “Walk” indication shall proceed to a sidewalk or to a safety island, and all drivers of vehicles shall yield to any such pedestrian.

(d) Whenever a signal system provides for the stopping of all vehicular traffic and the exclusive movement of pedestrians and “Walk” and “Don’t Walk” signal indications control such pedestrian movement, pedestrians may cross in any direction between corners of the intersection offering the shortest route within the boundaries of the intersection while the “Walk” indication is exhibited, if signals and other official devices direct pedestrian movement in such manner consistent with section 803(4).

(6) Any person who violates any provision of this section commits a class A traffic infraction.

803. Crossing at other than crosswalks.

(1) Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

(2) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(3) Between adjacent intersections at which traffic control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk.

(4) No pedestrian shall cross a roadway intersection diagonally unless authorized by official traffic control devices; and, when authorized to cross diagonally, pedestrians shall cross only in accordance with the official traffic control devices pertaining to such crossing movements.

(5) Any person who violates any provision of this section commits a class B traffic infraction.

804. Pedestrian to use right half of crosswalk. (Repealed)

805. Pedestrians walking or traveling in a wheelchair on highways.

(1) Pedestrians walking or traveling in a wheelchair along and upon highways where sidewalks are not provided shall walk or travel only on a road shoulder as far as practicable from the edge of the roadway. Where neither a sidewalk nor road shoulder is available, any pedestrian walking or traveling in a wheelchair along and upon a highway shall walk as near as practicable to an outside edge of the roadway and, in the case of a two-way roadway, shall walk or travel only on the left side of the roadway facing traffic that may approach from the opposite direction; except that any person lawfully soliciting a ride may stand on either side of such two-way roadway where there is a view of traffic approaching from both directions.

(2) No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any private vehicle. For the purposes of this subsection (2), “roadway” means that portion of the road normally used by moving motor vehicle traffic.

(3) It is unlawful for any person who is under the influence of alcohol or of any controlled substance, as defined in C.R.S. § 12-22-303 (7), or of any stupefying drug to walk or be upon that portion of any highway normally used by moving motor vehicle traffic.

(4) This section applying to pedestrians shall also be applicable to riders of animals.

(5) This local government may, by ordinance, regulate the use by pedestrians of streets and highways under its jurisdiction to the extent authorized under subsection (6) of this section and sections 110 and 111, but no ordinance regulating such use of streets and highways in a manner differing from this section shall be effective until official signs or devices giving notice thereof have been placed as required by section 111 (2).

(6) No person shall solicit a ride on any highway included in the interstate system, as defined in C.R.S. § 43-2-101 (2), except at an entrance to or exit from such highway or at places specifically designated by the department of transportation; or, in an emergency affecting a vehicle or its operation, a driver or passenger of a disabled vehicle may solicit a ride on any highway.

(7) Pedestrians shall only be picked up where there is adequate road space for vehicles to pull off and not endanger and impede the flow of traffic.

(8) Upon the immediate approach of an authorized emergency vehicle making use of audible or visual signals meeting the requirements of section 213 or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle and shall leave the roadway and remain off the same until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. This subsection (8) shall not relieve the driver of an authorized emergency vehicle from the duty to use due care as provided in sections 108 (4) and 807.

(9) Any person who violates any provision of this section commits a class B traffic infraction.

806. Driving through safety zone prohibited. No vehicle at any time shall be driven through or within a safety zone. Any person who violates any provision of this section commits a class A traffic infraction.

807. Drivers to exercise due care. Notwithstanding any of the provisions of this Code, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person upon a roadway. Any person who violates any provision of this section commits a class A traffic infraction.

808. Drivers and pedestrians, other than persons in wheelchairs, to yield to persons with disabilities.

(1) Any pedestrian other than a person in a wheelchair, or any driver of a vehicle who approaches an individual who has an obviously apparent disability shall immediately come to a full stop and take such precautions before proceeding as are necessary to avoid an accident or injury to said individual. A disability shall be deemed to be obviously apparent if, by way of example and without limitation, the individual is using a mobility device, is assisted by a service animal as defined in C.R.S. § 24-34-301, is being assisted by another person, or is walking with an obvious physical impairment. Any person who violates any provision of this section commits a class A traffic offense.

PART 9 TURNING – STOPPING

901. Required position and method of turning.

(1) The driver of a motor vehicle intending to turn shall do so as follows:

(a) **Right turns.** Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) **Left turns.** The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(c) **Two-way left-turn lanes.** Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices in the manner prescribed in the state traffic control manual, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law.

(2) Local authorities in their respective jurisdictions may cause official traffic control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by turning vehicles, and, when such devices are so placed, no driver shall turn a vehicle other than as directed and required by such devices. In the case of streets which are a part of the state highway system, the local regulation shall be subject to the approval of the department of transportation as provided in C.R.S. § 43-2-135 (1) (g).

(3) Any person who violates any provision of this section commits a class A traffic infraction.

902. Limitations on turning around.

(1) No vehicle shall be turned so as to proceed in the opposite direction upon any curve or upon the approach to or near the crest of a grade where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within such distance as is necessary to avoid interfering with or endangering approaching traffic.

(2) The driver of any vehicle shall not turn such vehicle at an intersection or any other location so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with or endangering other traffic.

(3) Local authorities, within their respective jurisdictions, subject to the provisions of C.R.S. § 43-2-135(1) (g), in the case of streets which are state highways, may erect “U- turn” prohibition or restriction signs at intersections or other locations where such movements are deemed to be hazardous, and, whenever official signs are so erected, no driver of a vehicle shall disobey the instructions thereof.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

903. Turning movements and required signals.

(1) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in section 901, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in sections 608 and 609.

(2) A signal of intention to turn right or left shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning in urban or metropolitan areas and shall be given continuously for at least two hundred feet on all four-lane highways and other highways where the prima facie or posted speed limit is more than forty miles per hour. Such signals shall be given regardless of existing weather conditions.

(3) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in sections 608 and 609 to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(4) The signals provided for in section 608 (2) shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle or flashed as a courtesy or “do pass” signal to operators of other vehicles approaching from the rear.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

PART 10 DRIVING - OVERTAKING – PASSING

1001. Drive on right side - exceptions.

(1) Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; but any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three lanes for traffic under the rules applicable thereon; or

(d) Upon a roadway restricted to one-way traffic as indicated by official traffic control devices.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subsection (1) (b) of this section. However, this subsection (3) does not prohibit the crossing of the center line in making a left turn into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

1002. Passing oncoming vehicles.

(1) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and, upon roadways having width for not more than one lane of traffic in each direction, each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.

(2) A driver shall not pass a bicyclist moving in the same direction and in the same lane when there is oncoming traffic unless the driver can simultaneously:

(a) Allow oncoming vehicles at least one-half of the main-traveled portion of the roadway in accordance with subsection (1) of this section; and

(b) Allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

1003. Overtaking a vehicle on the left.

(1) The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules stated in this section and sections 1004 to 1008:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the vehicle at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) The driver of a motor vehicle overtaking a bicyclist proceeding in the same direction shall allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(c) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of the driver's vehicle until completely passed by the overtaking vehicle.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

1004. When overtaking on the right is permitted.

(1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

- (a) When the vehicle overtaken is making or giving indication of making a left turn;
- (b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles and marked for two or more lanes of moving vehicles in each direction; or
- (c) Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement where the roadway is free from obstructions and marked for two or more lanes of moving vehicles.

(1.5) The driver of a motor vehicle upon a one-way roadway with two or more marked traffic lanes, when overtaking a bicyclist proceeding in the same direction and riding on the left-hand side of the road, shall allow the bicyclist at least a three-foot separation between the left side of the driver's vehicle, including all mirrors or other projections, and the right side of the bicyclist at all times.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

1005. Limitations on overtaking on the left.

(1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Code and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completed without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

(2) No vehicle shall be driven on the left side of the roadway under the following conditions:

- (a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;
- (b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing; or

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

(3) Local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Where such signs or markings are in place to define a no-passing zone and such signs or markings are clearly visible to an ordinarily observant person, no driver shall drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(4) The provisions of this section shall not apply:

(a) Upon a one-way roadway;

(b) Under the conditions described in section 1001(1)(b);

(c) To the driver of a vehicle turning left into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway; or

(d) To the driver of a vehicle passing a bicyclist moving the same direction and in the same lane when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

1006. One-way roadways and rotary traffic islands.

(1) Upon a roadway restricted to one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(2) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(3) Local authorities with respect to highways under their respective jurisdictions may designate any roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. In the case of streets which are a part of the state highway system, the regulation shall be subject to the approval of the department of transportation pursuant to C.R.S. § 43-2-135 (1) (g).

(4) Any person who violates any provision of this section commits a class A traffic infraction.

1007. Driving on roadways laned for traffic.

(1) Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent with this section shall apply:

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to the traffic moving in the direction the vehicle is proceeding and is designated by official traffic control devices to give notice of such allocation. Under no condition shall an attempt be made to pass upon the shoulder or any portion of the roadway remaining to the right of the indicated right-hand traffic lane.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway, and drivers of vehicles shall obey the directions of every such device.

(2)(a) The department of transportation may designate with signage an area on a roadway not otherwise laned for traffic for use by commercial vehicles, as defined in C.R.S. § 42-2-402(4), that are designed to transport sixteen or more passengers, including the driver, and that are operated by a governmental entity or government-owned business that transports the general public or by a contractor on behalf of such an entity or government-owned business. Use of such an area is limited to vehicles authorized by the department operating under conditions of use established by the department but, subject to the conditions of use, the driver of an authorized vehicle has sole discretion to decide whether or not to drive on such an area based on the driver's assessment of the safety of doing so. The department shall consult with the Colorado state patrol before granting authorization for the use of the area and establishing conditions of use. The department shall impose and each authorized user shall acknowledge the conditions for use by written agreement, and the department need not note the conditions of use in roadway signage. An authorized user does not violate this section or section 1004 when operating in accordance with the conditions of use for an area imposed by the department and acknowledged by the user in a written agreement.

(b) The department of transportation shall work with local governmental agencies in implementing the provisions of this subsection (2).

(3) Any person who violates any provision of this section commits a class A traffic infraction.

1008. Following too closely.

(1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger; except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

1008.5. Crowding or threatening bicyclist.

(1) The driver of a motor vehicle shall not, in a careless and imprudent manner, drive the vehicle unnecessarily close to, toward, or near a bicyclist.

(2) Any person who violates subsection (1) of this section commits careless driving as described in section 1402.

1009. Coasting prohibited.

(1) The driver of any motor vehicle when traveling upon a downgrade shall not coast with the gears or transmission of such vehicle in neutral.

(2) The driver of a truck or bus when traveling upon a downgrade shall not coast with the clutch disengaged.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

1010. Driving on divided or controlled-access highways.

(1) Whenever any highway has been divided into separate roadways by leaving an

intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic control devices. No vehicle shall be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, unless specifically prohibited by official signs and markings or by the provisions of C.R.S. § 42-4-902. However, this subsection (1) does not prohibit a left turn across a median island formed by standard pavement markings or other mountable or traversable devices as prescribed in the state traffic control manual when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(2)(a) No person shall drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

(b) Wherever an acceleration lane has been provided in conjunction with a ramp entering a controlled-access highway and the ramp intersection is not designated or signed as a stop or yield intersection as provided in section 703 (1), drivers may use the acceleration lane to attain a safe speed for merging with through traffic when conditions permit such acceleration with safety. Traffic so merging shall be subject to the rule governing the changing of lanes as set forth in section 1007 (1) (a).

(c) Wherever a deceleration lane has been provided in conjunction with a ramp leaving a controlled-access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster-moving traffic.

(3) Local authorities may by ordinance consistent with the provisions of C.R.S. § 43-2-135 (1) (g), with respect to any controlled-access highway under their respective jurisdictions, prohibit the use of any such highway by any class or kind of traffic which is found to be incompatible with the normal and safe movement of traffic. After adopting such prohibitory regulations shall install official traffic control devices in conformity with the standards established by sections 601 and 602 at entrance points or along the highway on which such regulations are applicable. When such devices are so in place, giving notice thereof, no person shall disobey the restrictions made known by such devices.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

1011. Omitted.

1012. Omitted.

1013. Passing lane - definitions - penalty.

(1) A person shall not drive a motor vehicle in the passing lane of a highway if the speed limit is sixty-five miles per hour or more unless such person is passing other motor vehicles that are in a non-passing lane or turning left, or unless the volume of traffic does not permit the motor vehicle to safely merge into a non-passing lane.

(2) For the purposes of this section:

(a) “Non-passing lane” means any lane that is to the right of the passing lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway.

(b) “Passing lane” means the farthest to the left lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway; except that, if such left lane is restricted to high occupancy vehicle use or is designed for left turns only, the passing lane shall be the lane immediately to the right of such high occupancy lane or left-turn lane.

(3) A person who violates this section commits a class A traffic infraction.

PART 11 SPEED REGULATIONS

1101. Speed limits.

(1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Except when a special hazard exists that requires a lower speed, the following speeds shall be lawful:

(a) Twenty miles per hour on narrow, winding mountain highways or on blind curves;

(b) Twenty-five miles per hour in any business district, as defined in C.R.S. § 42-1-102(11);

(c) Twenty-Five miles per hour in any residence district, as defined in C.R.S. § 42-1-102 (80);

(d) Forty miles per hour on open mountain highways;

(e) Forty-five miles per hour for all single rear axle vehicles in the business of transporting trash that exceed twenty thousand pounds, where higher speeds are posted, when said vehicle is loaded as an exempted vehicle pursuant to section 507 (3);

(f) Fifty-five miles per hour on other open highways which are not on the interstate system, as defined in C.R.S. § 43-2-101 (2), and are not surfaced, four-lane freeways or expressways;

(g) Sixty-five miles per hour on surfaced, four-lane highways which are on the interstate system, as defined in C.R.S. § 43-2-101 (2), or are freeways or expressways;

(h) Any speed not in excess of a speed limit designated by an official traffic control device.

(i) All County Roads shall have a maximum speed of twenty-five miles per hour unless posted otherwise.

(3) No driver of a vehicle shall fail to decrease the speed of such vehicle from an otherwise lawful speed to a reasonable and prudent speed when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(4) Except as otherwise provided in paragraph (c) of subsection (8) of this section, any speed in excess of the lawful speeds set forth in subsection (2) of this section shall be prima facie evidence that such speed was not reasonable or prudent under the conditions then existing. As used in this subsection (4), "prima facie evidence" means evidence which is sufficient proof that the speed was not reasonable or prudent under the conditions then existing, and which will remain sufficient proof of such fact, unless contradicted and overcome by evidence bearing upon the question of whether or not the speed was reasonable and prudent under the conditions then existing.

(5) In every charge of violating subsection (1) of this section, the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the alleged reasonable and prudent speed applicable at the specified time and location of the alleged violation.

(6) The provisions of this section shall not be construed to relieve the party alleging negligence under this section in any civil action for damages from the burden of proving that such negligence was the proximate cause of an accident.

(7) Notwithstanding paragraphs (a), (b), and (c) of subsection (2) of this section, any city or town may by ordinance adopt absolute speed limits as the maximum lawful speed limits in its jurisdiction, and such speed limits shall not be subject to the provisions of subsection (4) of this section.

(8)(a) (Deleted by amendment, L. 96, p. 578, § 2, effective May 25, 1996.)

(b) Notwithstanding any other provisions of this section, no person shall drive a vehicle on a highway at a speed in excess of a maximum lawful speed limit of seventy-five miles per hour.

(c) The speed limit set forth in paragraph (b) of this subsection (8) is the maximum lawful speed limit and is not subject to the provisions of subsection (4) of this section.

(d) Local authorities within their respective jurisdictions shall not authorize any speed limit which exceeds seventy-five miles per hour on any highway.

(e) The provisions of this subsection (8) are declared to be matters of both local and statewide concern requiring uniform compliance throughout the state.

(f) In every charge of a violation of paragraph (b) of this subsection (8), the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the maximum lawful speed limit of seventy-five miles per hour.

(g) Notwithstanding any other provision of this section, no person shall drive a low-power scooter on a roadway at a speed in excess of forty miles per hour. Local authorities shall not authorize low-power scooters to exceed forty miles per hour on a roadway.

(9) The conduct of a driver of a vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the consequences sought to be prevented by this section; or

(b) With respect to authorized emergency vehicles, the applicable conditions for exemption, as set forth in section 108, exist.

(10) The minimum requirement for commission of a traffic infraction or misdemeanor traffic offense under this section is the performance by a driver of prohibited conduct, which includes a voluntary act or the omission to perform an act which said driver is physically capable of performing.

(11) It shall not be a defense to prosecution for a violation of this section that:

(a) The defendant's conduct was not performed intentionally, knowingly, recklessly, or with criminal negligence; or

(b) The defendant's conduct was performed under a mistaken belief of fact, including, but not limited to, a mistaken belief of the defendant regarding the speed of the defendant's vehicle; or

(c) The defendant's vehicle has a greater operating or fuel-conserving efficiency at speeds greater than the reasonable and prudent speed under the conditions then existing or at speeds greater than the maximum lawful speed limit.

(12)(a) A violation of driving one to twenty-four miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class A traffic infraction.

(b) A violation of driving twenty-five or more miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five

miles per hour is a class 2 misdemeanor traffic offense; except that such violation within a maintenance, repair, or construction zone, designated pursuant to section 614, is a class 1 misdemeanor traffic offense.

(c) A violation under subsection (3) of this section is a class A traffic infraction.

1102. Altering of speed limits.

(1)(a) Whenever local authorities determine upon the basis of a traffic investigation or survey or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a state highway under its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto; except that no speed limit in excess of seventy-five miles per hour shall be authorized by said local authority.

(b) Repealed.

(2) Whenever county or municipal authorities within their respective jurisdictions determine upon the basis of a traffic investigation or survey, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof, that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a street or highway in its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto. No such local authority shall have the power to alter the basic rules set forth in section 1101 (1) or in any event to authorize by resolution or ordinance a speed in excess of seventy-five miles per hour.

(3) Local municipal authorities within their respective jurisdictions shall determine upon the basis of a traffic investigation or survey the proper speed for all arterial streets and shall declare a reasonable and safe speed limit thereon which may be greater or less than the speed specified under section 1101 (2) (b) or (2) (c). Such speed limit shall not exceed seventy-five miles per hour and shall become effective when appropriate signs are erected giving notice thereof. For purposes of this subsection (3), an "arterial street" means any United States or state- numbered route, controlled-access highway, or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways.

(4) No alteration of speed limits on state highways within cities, cities and counties, and incorporated towns is effective until it has been approved in writing by the department of transportation. Upon the request of any incorporated city or town, the department of transportation shall conduct any traffic investigation or survey that is deemed to be warranted for determination of a safe and reasonable speed limit on any street or portion thereof that is a state

highway. In conducting such a traffic investigation, the department may receive and consider traffic and engineering data provided by the city or county engineer of any requesting local government that will be impacted by a proposed alteration of speed limits. Any speed limit so determined by the department becomes effective when declared by the local authority and made known by official signs conforming to the state traffic control manual.

(5) Whenever the local authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey that a reduced speed limit is warranted in a school or construction area or other place during certain hours or periods of the day when special or temporary hazards exist, the department or the concerned local authority may erect or display official signs of a type prescribed in the state traffic control manual giving notice of the appropriate speed limit for such conditions and stating the time or period the regulation is effective. When such signs are erected or displayed, the lawful speed limit at the particular time and place shall be that which is then indicated upon such signs; except that no such speed limit shall be less than twenty miles per hour on a state highway or other arterial street as defined in subsection (3) of this section nor less than fifteen miles per hour on any other road or street, nor shall any such reduced speed limit be made applicable at times when the special conditions for which it is imposed cease to exist. Such reduced speed limits on streets which are state highways shall be subject to the written approval of the department of transportation before becoming effective.

(6) In its discretion, a municipality, by ordinance, or a county, by resolution of the board of county commissioners, may impose and enforce stop sign regulations and speed limits, not inconsistent with the provisions of sections 1101 to 1104, upon any way which is open to travel by motor vehicles and which is privately maintained in mobile home parks, when appropriate signs giving notice of such enforcement are erected at the entrances to such ways. Unless there is an agreement to the contrary, the jurisdiction ordering the regulations shall be responsible for the erection and maintenance of the signs.

(7) Any powers granted in this section to county or municipal authorities may be exercised by such authorities or by any municipal officer or employee who is designated by ordinance to exercise such powers.

1103. Minimum speed regulation.

(1) No person shall drive a motor vehicle on any highway at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed is necessary for safe operation of such vehicle or in compliance with law.

(2) Whenever the department of transportation or local authorities within their respective jurisdictions determine, on the basis of an engineering and traffic investigation as described in the state traffic control manual, that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, said department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law.

(3) Notwithstanding any minimum speed that may be authorized and posted pursuant to this section, if any person drives a motor vehicle on a highway outside an incorporated area or on any controlled-access highway at a speed less than the normal and reasonable speed of traffic under the conditions then and there existing and by so driving at such slower speed impedes or retards the normal and reasonable movement of vehicular traffic following immediately behind, then such driver shall:

(a) Where the width of the traveled way permits, drive in the right-hand lane available to traffic or on the extreme right side of the roadway consistent with the provisions of section 1001 (2) until such impeded traffic has passed by; or

(b) Pull off the roadway at the first available place where such movement can safely and lawfully be made until such impeded traffic has passed by.

(4) Wherever special uphill traffic lanes or roadside turnouts are provided and posted, drivers of all vehicles proceeding at less than the normal and reasonable speed of traffic shall use such lanes or turnouts to allow other vehicles to pass or maintain normal traffic flow.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

1104. Speed limits on elevated structures.

(1) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(2) The department of transportation upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and, if it finds that such structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under sections 1101 to 1104, said department shall determine and declare the maximum speed of vehicles which such structure can withstand and shall cause or permit suitable standard signs stating such maximum speed to be erected and maintained before each end of such structure in conformity with the state traffic control manual.

(3) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department and the existence of said signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

1105. Speed contests - speed exhibitions - aiding and facilitating - immobilization of motor vehicle - definitions.

(1)(a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed contest on a highway.

(b) For purposes of this section, “speed contest” means the operation of one or more motor vehicles to conduct a race or a time trial, including but not limited to rapid acceleration, exceeding reasonable and prudent speeds for highways and existing traffic conditions, vying for position, or performing one or more lane changes in an attempt to gain advantage over one or more of the other race participants.

(c) A person who violates any provision of this subsection (1) commits a class 1 misdemeanor traffic offense.

(2)(a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed exhibition on a highway.

(b) For purposes of this section, “speed exhibition” means the operation of a motor vehicle to present a display of speed or power. “Speed exhibition” includes, but is not limited to, squealing the tires of a motor vehicle while it is stationary or in motion, rapid acceleration, rapid swerving or weaving in and out of traffic, producing smoke from tire slippage, or leaving visible tire acceleration marks on the surface of the highway or ground.

(c) A person who violates any provision of this subsection (2) commits a class 2 misdemeanor traffic offense.

(3)(a) Except as otherwise provided in subsection (4) of this section, a person shall not, for the purpose of facilitating or aiding or as an incident to any speed contest or speed exhibition upon a highway, in any manner obstruct or place a barricade or obstruction, or assist or participate in placing any such barricade or obstruction, upon a highway.

(b) A person who violates any provision of this subsection (3) commits, pursuant to section 1703, the offense that the person aided in or facilitated the commission of. Nothing in this subsection (3) shall be construed to preclude charging a person under section 1703 for otherwise being a party to the crime of engaging in a speed contest or engaging in a speed exhibition.

(4) The provisions of this section shall not apply to the operation of a motor vehicle in an organized competition according to accepted rules on a designated and duly authorized race track, race course, or drag strip.

(5)(a) In addition to a sentence imposed pursuant to this section or pursuant to any other provision of law:

(I) Upon the second conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this

section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to fourteen days.

(II) Upon the third or subsequent conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to thirty days but more than fourteen days.

(b) The period during which a motor vehicle may be fitted with an immobilization device pursuant to paragraph (a) of this subsection (5) shall be in addition to any period during which the motor vehicle was impounded prior to sentencing.

(c) An order issued under this subsection (5) shall state the requirements included in subsections (7) and (8) of this section.

(d) For purposes of this section, “immobilization device” means a device locked into place over a wheel of a motor vehicle that prevents the motor vehicle from being moved. “Immobilization device” includes but is not limited to a device commonly referred to as a “traffic boot” or “boot”.

(6)(a) Except as otherwise provided in subsection (9) of this section, a law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall attempt to locate the motor vehicle within its jurisdiction. The law enforcement agency may, in its discretion, attempt to locate the motor vehicle outside of its jurisdiction.

(b) Nothing in this subsection (6) shall be construed to:

(I) Prohibit a law enforcement agency from seeking the assistance of another law enforcement agency for the purpose of placing an immobilization device on a motor vehicle or removing the device in accordance with this section; or

(II) Require a law enforcement agency to expend excessive time or commit excessive staff to the task of locating a motor vehicle subject to immobilization under this section.

(c) The time spent by a law enforcement agency in locating a motor vehicle in accordance with this subsection (6) shall not alter the immobilization period ordered by the court under subsection (5) of this section.

(d) A law enforcement agency that places an immobilization device on a motor vehicle pursuant to this section shall affix a notice to the immobilized motor vehicle stating the information described in subsections (7) and (8) of this section.

(e) A peace officer who locates or attempts to locate a motor vehicle, or who places or removes, or assists with the placement or removal of, an immobilization device in accordance with

the provisions of this section shall be immune from civil liability for damages, except for damages arising from willful and wanton conduct.

(7)(a) The owner of a motor vehicle immobilized under this section shall be assessed a fee of thirty-five dollars for each day the motor vehicle is ordered immobilized and, except as otherwise provided in paragraph (d) of this subsection (7), thirty-five dollars for each day up to fourteen days after the immobilization period that the fee for the immobilization period is not paid. The owner shall pay the fee to the law enforcement agency that places the immobilization device on the motor vehicle.

(b) The owner, within fourteen days after the end of the immobilization period ordered by the court, may obtain removal of the immobilization device by the law enforcement agency that placed it by requesting the removal and paying the fee required under paragraph (a) of this subsection (7).

(c) The failure of the owner of the immobilized motor vehicle to request removal of the immobilization device and pay the fee within fourteen days after the end of the immobilization period ordered by the court or within the additional time granted by the court pursuant to paragraph (d) of this subsection (7), whichever is applicable, shall result in the motor vehicle being deemed an “abandoned motor vehicle”, as defined in sections 1802 (1) (d) and 2102 (1) (d), and subject to the provisions of part 18 or 21 of this Code, whichever is applicable. The law enforcement agency entitled to payment of the fee under this subsection (7) shall be eligible to recover the fee if the abandoned motor vehicle is sold, pursuant to section 1809 (2)(b.5) or 2108 (2) (a.5).

(d) Upon application of the owner of an immobilized motor vehicle, the court that ordered the immobilization may, in its discretion, grant additional time to pay the immobilization fee required under paragraph (a) of this subsection (7). If additional time is granted, the court shall notify the law enforcement agency that placed the immobilization device.

(8)(a) A person may not remove an immobilization device that is placed on a motor vehicle pursuant to this section during the immobilization period ordered by the court.

(b) No person may remove the immobilization device after the end of the immobilization period except the law enforcement agency that placed the immobilization device and that has been requested by the owner to remove the device and to which the owner has properly paid the fee required by subsection (7) of this section. Nothing in this subsection (8) shall be construed to prevent the removal of an immobilization device in order to comply with the provisions of part 18 or 21 of this Code.

(c) A person who violates any provision of this subsection (8) commits a class 2 misdemeanor traffic offense.

(9)(a) A law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall inform the court at sentencing if it is unable to comply with the court’s order either because the law enforcement agency is not yet

equipped with an immobilization device or because it does not have a sufficient number of immobilization devices. The court, upon being so informed, shall, in lieu of ordering immobilization, order the law enforcement agency to impound the motor vehicle for the same time period that the court initially ordered the motor vehicle to be immobilized.

(b) If a motor vehicle is ordered to be impounded pursuant to paragraph (a) of this subsection (9), the provisions of subsections (6) to (8) of this section shall not apply.

No person shall stop, stand, or park any vehicle in violation of the restrictions indicated by such devices.

(7) Any person who violates any provision of this section commits a class B traffic infraction; except that, if a person violates paragraph (b) of subsection (2) of this section and the violation occurs in an unincorporated area of a county, the penalty is fifty dollars.

(I) The identifying plate or placard is currently valid in the state of issuance and meets the requirements of 23 CFR 1235; and

(II) The holder has not been a resident in Colorado for more than ninety days.

(d) A motor vehicle with an identifying plate or a placard may be parked in public parking areas along public streets or in private parking lots regardless of any time limitation imposed upon parking in the area; except that a jurisdiction may specifically limit reserved parking on any public street to no less than four hours. To limit reserved parking, the jurisdiction must clearly post the appropriate time limits in the area. The ability to park notwithstanding parking limitations does not apply to areas in which:

(I) Stopping, standing, or parking of all vehicles is prohibited;

(II) Only special vehicles may be parked; or

(III) Parking is not allowed during specific periods of the day in order to accommodate heavy traffic.

(e) (I) The owner of public or private property may request the installation of official signs or pavement markings identifying reserved parking spaces. The request operates as a waiver of any objection the owner may assert concerning enforcement of this section by a peace officer. An officer may enforce this section on private property notwithstanding any provision of law to the contrary.

(II) (A) The number and placement of accessible parking spaces should meet or exceed section 1106 of chapter 11 of the 2012 (second printing) version of the international building code, or any succeeding standard, published by the international code council; and (B) The technical standards for accessible parking spaces should meet or exceed section 502, or any successor section, of the "Accessible and Useable Buildings and Facilities" standard, or any succeeding standard, promulgated and amended from time to time by the international code council (commonly cited as ICC/ANSI A117.1); and (C) Access aisles should post "Wheelchair Access Aisle Absolutely No Parking" sign, which blocks neither the access aisle nor accessible routes; and (D) The technical standards for post- or wall-mounted signs indicating accessible parking spaces and van-accessible parking spaces should meet or exceed section 2B.46 concerning parking, standing, and stopping signs and section 2B.47 concerning design of parking, standing, and stopping of the 2009 version of the manual on uniform traffic control devices, or any succeeding standard, published by the United States federal highway administration.

(III) The owner of real property with multiple-family dwellings affixed and with reserved parking shall retain the reserved parking as commonly owned for the tenants, owners, or

visitors of the individual units within the dwellings. This subparagraph (III) does not prohibit the sale of all commonly owned property so long as the reserved parking is not severed from the other elements.

(IV) A person shall not impose restrictions on the use of disabled parking unless specifically authorized by a statute of Colorado and a resolution of or ordinance of a political subdivision of Colorado and notice of the restriction is prominently posted by a sign clearly visible at the parking space.

(3) Misuse of reserved parking.

(a) A person without a disability shall not park in a parking space on public or private property that is clearly identified by an official sign or by visible pavement markings as being reserved parking or as being a passenger loading zone unless:

(I) The person is parking the vehicle for the direct benefit of a person with a disability to enter or exit the vehicle while it is parked in the reserved parking space; and

(II) An identifying plate or placard obtained under or authorized by CRS § 42-3-204 is displayed in or on the vehicle if the license plate or placard is currently valid or has expired less than one month before the day the person used the reserved parking.

(b) (I) A person, after using a reserved parking space that has a time limit, shall not switch motor vehicles or move the motor vehicle to another reserved parking space within one hundred yards of the original parking space within the same eight hours in order to exceed the time limit.

(II) (A) Parking in a time-limited reserved parking space for more than three hours for at least three days a week for at least two weeks creates a rebuttable presumption that the person is violating this paragraph (b); and (B) This subparagraph (II) does not apply to privately owned parking spaces.

(c) A person shall not use reserved parking for a commercial purpose unless:

(I) The purpose relates to transacting business with a business the reserved parking is intended to serve; or

(II) The owner of private property consents to allow the use.

(d) (I) An employee of an entity shall not use an identifying placard issued to the entity unless the employee is transporting persons with disabilities.

(II) For a violation of this paragraph (d), the chief operations officer within Colorado of the entity to whom the placard or plate was issued and the offending employee are each subject to the penalties in C.R.S. § 42-4-1701(4) (a) (I) (M).

(III) (A) It is an affirmative defense to a violation of this paragraph (d) for the chief operations officer within Colorado that the entity enforces an internal policy controlling access to and use of identifying placards issued to the entity. (B) If the placard used is expired by operation of C.R.S. § 42-3-204(6) (f), it is an affirmative defense to a violation of this paragraph (d) that the person did not know the placard was expired if the person who used the placard was the person to whom it was issued.

(e) (I) A person who violates paragraph (a) of this subsection (3) is subject to the penalties in C.R.S § 42-4-1701 (4) (a) (VIII) and (IX).

(II) A person who violates paragraphs (b) to (d) of this subsection (3) is subject to the penalties in C.R.S. § 42-4-1701 (4) (a) (I) (M).

(4) Blocking access.

(a) Regardless of whether a person displays an identifying plate or placard, a person shall not park a vehicle so as to block reasonable access to curb ramps, passenger loading zones, or accessible routes, as identified in 28 CFR part 36 appendix A, that are clearly identified unless the person is actively loading or unloading a person with a disability.

(b) A person who violates this subsection (4) is subject to the penalties in C.R.S. § 42-4-1701(4) (a) (VIII).

(5) Fraud and trafficking. A person is subject to the penalties in section C.R.S. § 42-4-1701(4) (a) (X) if the person:

(a) Knowingly and fraudulently obtains, possesses, uses, or transfers an identifying placard issued to a person with a disability;

(b) Knowingly makes, possesses, uses, alters, or transfers what purports to be, but is not, an identifying placard; or

(c) Knowingly creates or uses a device intended to give the impression that it is an identifying placard when viewed from outside the vehicle.

(6) Enforcement of reserved parking.

(a) A peace officer or authorized and uniformed parking enforcement official may check the identification of a person using an identifying plate or placard in order to determine whether the use is authorized.

(b) (I) A peace officer or authorized and uniformed parking enforcement official may confiscate an identifying placard that is being used in violation of this section.

(II) The peace officer or parking enforcement official shall send a confiscated placard to the department unless it is being held as evidence for prosecution of a violation of this section. If the tag is being held as evidence, the peace officer or parking enforcement official shall notify the department of the confiscation and pending charges.

(III) The department shall hold a confiscated placard for thirty days and may dispose of the placard after thirty days. The department shall release the placard to the person with a disability to whom it was issued when the person signs a statement under penalty of perjury that he or she was unaware that the violator used, or intended to use, the placard in violation of this section.

(c) A peace officer and the department may investigate an allegation that a person is violating this section.

(d) A person who observes a violation of this section may submit evidence, including a sworn statement, concerning the violation to any law enforcement agency.

(e) (I) A peace officer may issue a penalty assessment notice for a violation of paragraph (b), (c), or (d) of subsection (3) of this section by sending it by certified mail to the registered owner of the motor vehicle. The peace officer shall include in the penalty assessment notice the offense or infraction, the time and place where it occurred, and a statement that the payment of the penalty assessment and a surcharge is due within twenty days after the issuance of the notice. The department receives payment of the penalty assessment by the due date if the payment is received or postmarked by the twentieth day after the vehicle owner received the penalty assessment notice.

(II) If the penalty assessment and surcharge are not paid within twenty days after the date the vehicle owner receives the assessment notice specified in subparagraph (I) of this paragraph (e), the peace officer who issued the original penalty assessment notice shall file a complaint with a court having jurisdiction and issue and serve upon the registered owner of the vehicle a summons to appear in court at the time and place specified.

(f) (I) The entering court shall send certification of the entry of judgment for each violation of paragraph (b), (c), or (d) of subsection (3) of this section to the department.

(II) Upon receipt of certification of an entry of judgment for a violation of paragraph (b), (c), or (d) of subsection (3) of this section, the department shall not register the person's vehicle until all fines imposed for the violations have been paid.

(III) Upon receipt of certification or independent verification of an entry of judgment, the department shall revoke an identifying plate or placard as provided in C.R.S. § 42-3-204(7) (d).

(g) (I) Notwithstanding any other provision of this section to the contrary, a holder is liable for any penalty or fine as set forth in this section or C.R.S. § 42-3-204 or for any misuse of an identifying plate or placard, including the use of such plate or placard by any person other than a holder, unless the holder furnishes sufficient evidence that the identifying plate or placard was, at the time of the violation, in the care, custody, or control of another person without the holder's knowledge or consent.

(II) A holder may avoid the liability described in subparagraph (I) of this paragraph (g) if, within a reasonable time after notification of the violation, the holder furnishes to the prosecutorial division of the appropriate jurisdiction the name and address of the person who had the care, custody, or control of the identifying plate or placard at the time of the violation or the holder reports the license plate or placard lost or stolen to both the appropriate local law enforcement agency and the department.

(h) An employer shall not forbid an employee from reporting violations of this section. A person shall not initiate or administer any disciplinary action against an employee because the employee notified the authorities of a possible violation of this section if the employee has a good-faith belief that a violation has occurred.

(i) A landlord shall not retaliate against a tenant because the tenant notified the authorities of a possible violation of this section if the tenant has a good-faith belief that a violation has occurred.

(j) In order to stop a vehicle from blocking access or illegally using reserved parking, a peace officer may order a vehicle that is used to violate this subsection (4) to be towed to an impound lot or a vehicle storage location. The peace officer shall verify that the vehicle has not been stolen and report the fact of the tow to the department of revenue in accordance with C.R.S. § 42-4-1804.

(k) The local authority issuing a citation under this section, or under any local ordinance defining a substantially equivalent offense, shall transfer one-half of the fine to the state treasurer, who shall credit the fine to the disabled parking education and enforcement fund created in C.R.S. § 42-1-226.

1209. Owner liability for parking violations. In addition to any other liability provided for in this Code, the owner of a motor vehicle who is engaged in the business of leasing or renting motor vehicles is liable for payment of a parking violation fine unless the owner of the leased or rented motor vehicle can furnish sufficient evidence that the vehicle was, at the time of the parking violation, in the care, custody, or control of another person. To avoid liability for payment the owner of the motor vehicle is required, within a reasonable time after notification of the parking violation, to furnish to the prosecutorial division of the appropriate jurisdiction the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of such vehicle. As a condition to avoid liability for payment of a parking violation, any person or company who leases or rents motor vehicles to another person shall attach to the leasing or rental agreement a notice stating that, pursuant to the requirements of this section, the operator of the vehicle is liable for payment of a parking violation fine incurred when the operator has the care, custody, or control of the motor vehicle. The notice shall inform the operator that the operator's name and address shall be furnished to the prosecutorial division of the appropriate jurisdiction when a parking violation fine is incurred by the operator.

1210. Designated areas on private property for authorized vehicles.

(1) The owner or lessee of any private property available for public use in the unincorporated areas of a county may request in writing that specified areas on such property be designated by the board of county commissioners for use only by authorized vehicles and that said areas, upon acceptance in writing by the board of county commissioners, shall be clearly marked by the owner or lessee with official traffic control devices, as defined in C.R.S. § 42-1-102 (64). Such a request shall be a waiver of any objection the owner or lessee may assert concerning enforcement of this section by peace officers of this state, and such officers are hereby authorized and empowered to so enforce this section, provisions of law to the contrary notwithstanding. When the owner or lessee gives written notice to the board of county commissioners that said request is withdrawn, and the owner or lessee removes all traffic control devices, the provisions of this section shall no longer be applicable.

(2) It is unlawful for any person to park any vehicle other than an authorized vehicle in any area designated and marked for such use as provided in this section.

(3) Any person who violates the provisions of subsection (2) of this section is guilty of a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of twenty-five dollars. The disposition of fines and forfeitures shall be paid into the treasury of the county at such times and in such manner as may be prescribed by the board of county commissioners.

1211. Limitations on backing.

(1)(a) The driver of a vehicle, whether on public property or private property which is used by the general public for parking purposes, shall not back the same unless such movement can be made with safety and without interfering with other traffic.

(b) The driver of a vehicle shall not back the same upon any shoulder or roadway of any controlled-access highway.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

1212. Pay parking access for disabled.

(1) Unless the method of remuneration is reasonably accessible to a person with a disability as defined in C.R.S. § 42-3-204, no person who owns, operates, or manages a parking space that requires remuneration shall tow, boot, or otherwise take adverse action against a person or motor vehicle parking in such space for failure to pay the remuneration if the motor vehicle bears a placard or license plate bearing an identifying figure issued pursuant to C.R.S. § 42-3-204 or a similar law in another state that is valid under 23 CFR 1235.

(2) Notwithstanding any statute, resolution, or ordinance of the state of Colorado or a political subdivision thereof, parking in a space without paying the required remuneration shall not be deemed a violation of such statute, resolution, or ordinance if:

(a) The motor vehicle bears a placard or license plate bearing the identifying figure issued pursuant to C.R.S. § 42-3-204 or a similar law in another state that is valid under 23 CFR 1235; and

(b) The method of remuneration is not reasonably accessible to a person with a disability as defined in C.R.S. § 42-3-204.

(3) A law enforcement agency shall withdraw any penalty assessment notice or summons and complaint that is deemed not to be a violation under subsection (2) of this section.

(4) For the purposes of this section, "reasonably accessible" means meeting the standards of 28 CFR 36 (appendix A) or substantially similar standards.

Nothing in this paragraph (a) shall be construed to prevent the court from imposing a fine greater than the minimum mandatory fine.

(b) Upon a second or subsequent conviction under this section within a period of five years following a prior conviction under this section, in addition to any imprisonment imposed pursuant to C.R.S. § 42-4-1701 (3) (a) (II) (A), the defendant shall be punished by a minimum mandatory fine of not less than one thousand dollars, and the court shall not suspend such minimum fine. (5) Testimony of the failure of any owner or operator of a motor vehicle or low-power scooter to present immediate evidence of a complying policy or certificate of self-insurance in full force and effect as required by law, when requested to do so by a peace officer, shall constitute prima facie evidence, at a trial concerning a violation charged under subsection (1) or (2) of this section, that such owner or operator of a motor vehicle violated subsection (1) or (2) of this section.

(6) A person charged with violating subsection (1), (2), or (3) of this section shall not be convicted if the person produces in court a bona fide complying policy or certificate of self-insurance that was in full force and effect as required by law at the time of the alleged violation. The court clerk's office may dismiss the charge if it verifies that the person had a valid policy in effect at the time of the alleged violation using the uninsured motorist identification database created in C.R.S. § 42-7-602.

(9) It is the intent of the general assembly that the money collected as fines imposed pursuant to subsections (4)(a) and (4)(b) of this section are to be used for the supervision of the public highways. The general assembly determines that law enforcement agencies that patrol and maintain the public safety on public highways are supervising the public highways. The general assembly further determines that an authorized agent is supervising the public highways through his or her enforcement of the requirements for demonstration of proof of motor vehicle insurance pursuant to C.R.S. § 42-3-105 (1) (d). Therefore, of the money collected from fines pursuant to subsections (4)(a) and (4)(b) of this section, fifty percent shall be transferred to the law enforcement agency that issued the ticket for a violation of this section. The remaining fifty percent of the money collected from fines for violations subsection (4)(a) or (4)(b) of this section shall be transmitted to the authorized agent for the county in which the violation occurred.

(2) Violation of this section is a class B traffic infraction, punishable by a fine of up to five hundred dollars.

Any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, or agent of the Colorado bureau of investigation who finds a motor vehicle that such officer has reasonable grounds to believe has been abandoned shall require such motor vehicle to be removed or cause the same to be removed and placed in storage in any impound lot designated or maintained by the law enforcement agency employing such officer.

(b) If an operator is used by the responsible law enforcement agency to tow or impound the motor vehicle pursuant to paragraph (a) of this subsection (1), the operator shall be provided with written authorization to possess the motor vehicle on a document that includes, without limitation, the year, make, model, vehicle identification number, and storage location.

(2) Whenever any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, agent of the Colorado bureau of investigation, or agency employee finds a motor vehicle, vehicle, cargo, or debris, attended or unattended, standing upon any portion of a highway right-of-way in such a manner as to constitute an obstruction to traffic or proper highway maintenance, such officer or agency employee is authorized to cause the motor vehicle, vehicle, cargo, or debris to be moved to eliminate any such obstruction; and neither the officer, the agency employee, nor anyone acting under the direction of such officer or employee shall be liable for any damage to such motor vehicle, vehicle, cargo, or debris occasioned by such removal. The removal process is intended to clear the obstruction, but such activity should create as little damage as possible to the vehicle, or cargo, or both. No agency employee shall cause any motor vehicle to be moved unless such employee has obtained approval from a local law enforcement agency of a municipality, county, or city and county, the Colorado bureau of investigation, or the Colorado state patrol.

(3) The operator shall be responsible for removing the motor vehicle and the motor vehicle debris from the site pursuant to this section, but shall not be required to remove or clean up any hazardous or commercial cargo the motor vehicle carried. The commercial carrier shall be responsible for removal or clean-up of the hazardous or commercial cargo.

1804. Report of abandoned motor vehicles - owner's opportunity to request hearing.

(1)(a) Upon having an abandoned motor vehicle towed, the responsible law enforcement agency shall ascertain, if possible, whether or not the motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the towing carrier shall have the right to recover from the owner their reasonable costs and fees for recovering and securing the motor vehicle. Nothing in this section shall be construed to authorize fees for services that were not provided or that were provided by another person or entity.

(b) As soon as possible, but in no event later than ten working days after having an abandoned motor vehicle towed, the responsible law enforcement agency shall report the same to the department by first-class or certified mail, by personal delivery, or by internet communication. The report shall be on a form prescribed and supplied by the department.

(c) The report shall contain the following information:

(I) The fact of possession, including the date possession was taken, the location of storage of the abandoned motor vehicle and the location from which it was towed, the identity of the responsible law enforcement agency, and the business address, telephone number, and name and signature of a representative from the responsible law enforcement agency;

(III) A description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, and the vehicle identification number.

(2) Upon its receipt of a report made under subsection (1) or (6) of this section, the department shall search its records to ascertain the last-known owner of record for the abandoned motor vehicle and any lienholder as those persons are represented in department records. In the event the vehicle is determined by the department not to be registered in the state of Colorado, the report required by this section shall state that no Colorado title record exists regarding the vehicle. Within ten working days after such receipt, the department shall complete its search and shall transmit such report, together with all relevant information, to the responsible law enforcement agency.

(3) The responsible law enforcement agency, upon its receipt of the report required under subsection (2) of this section, shall determine, from all available information and after reasonable inquiry, whether the abandoned motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the operator shall have the right to recover from the owner their reasonable costs to recover and secure the motor vehicle.

(4) (a) If the responsible law enforcement agency, does not use an operator to store the motor vehicle, the responsible law enforcement agency, within ten working days after the receipt of the

report from the department required in subsection (2) of this section, shall notify by certified mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of such report and the claim of any lien under section 1806 and shall send a copy of such notice to the operator. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from which it was towed, and that, unless claimed within thirty calendar days after the date the notice was sent as determined from the postmark on the notice, the motor vehicle is subject to sale.

(b) If the responsible law enforcement agency uses an operator to store the motor vehicle, the responsible law enforcement agency within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by first class mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of the report and the claim of any lien under section 1806. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from where it was towed, and that from the postmark on the notice, the motor vehicle is subject to sale.

(c) The responsible law enforcement agency shall include in the notices sent pursuant to either paragraph (a) or (b) of this subsection (4), a statement informing the owner of record of the opportunity to request a hearing concerning the legality of the towing of the abandoned motor vehicle, and the responsible law enforcement agency to contact for that purpose.

(d) If an owner or lienholder requests a hearing, the owner or lienholder shall make the request in writing to the responsible law enforcement agency within ten days after the notice was sent, as determined by the postmark. Such hearing, if requested, shall be conducted pursuant to the provisions of C.R.S. § 24-4-105, if the responsible law enforcement agency is the Colorado state patrol. If a local political subdivision is the responsible law enforcement agency, such hearing shall be conducted pursuant to local hearing procedures. If it is determined at the hearing that the motor vehicle was illegally towed upon request from a law enforcement agency, all towing charges and storage fees assessed against the vehicle shall be paid by such law enforcement agency.

(5) The department shall maintain department-approved notice forms satisfying the requirements of subsection (4) of this section and shall make them available for use by local law enforcement agencies.

(6)(a) (I) Except as provided in subparagraph (II) of this paragraph (a), an operator or its agent shall, no less than two days, but no more than ten days after a motor vehicle has been towed, determine who the owner is and if there is a lienholder and send a notice by certified mail, return receipt requested, to the last address of the owner, and any lienholder, as determined from the records of the department or from a national search performed by the department.

(II) If the department conducts a national title search in accordance with paragraph (b) of subsection (2) of this section, each day elapsing between the department being notified and the department returning information on the motor vehicle as a result of the search does not count against the tow operator's ten-day deadline to contact the motor vehicle's owner or any lienholder. This subparagraph (II) does not affect daily storage fees.

(III) The cost of complying with this paragraph (a) is a cost of towing; except that the total of all costs of complying with this section shall not exceed one hundred fifty dollars. To comply with this subsection (6), the notice to the owner and lienholder must be sent within five days after the operator receives the information from the department and must contain the following information:

(A) The facts of possession, including the date possession was taken, the location of storage of the motor vehicle, and the location from which it was towed;

(B) The identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(C) A description of the motor vehicle, including the make, model, color, and year and the number, issuing state, and expiration date of the license plate, or any other indicia of the motor vehicle's state of origin.

(b) The operator shall not be entitled to recover any daily storage fees from the day the vehicle is towed until the day the owner and lienholder are notified, unless the operator reasonably attempts to notify the owner and lienholder by the date specified in paragraph (a) of this subsection (6). Sending a notice by certified mail, return receipt requested, to the owner and the lienholder as represented in department records shall be deemed a reasonable attempt to notify the owner and the lienholder. Failure to notify the owner and the lienholder due to the receipt of erroneous information from the department or a failure of the law enforcement agency to comply with this section shall not cause the loss of such storage fees accrued from the date the vehicle is towed until the owner and the lienholder receive such notice.

1805. Appraisal of abandoned motor vehicles - sale.

(1)(a) Abandoned motor vehicles or motor vehicles abandoned in an impound lot subsequent to a tow from public property shall be appraised by a law enforcement officer or an independent motor vehicle dealer and sold by the responsible law enforcement agency at a public or private sale held not less than thirty days nor more than sixty days after the date the notice required by C.R.S. § 42-4-1804(4), was mailed.

(b) Subject to section 1804, the operator may continue to charge for daily storage fees until the responsible law enforcement agency complies with this section.

(2) If the appraised value of an abandoned motor vehicle sold pursuant to this section is three hundred fifty dollars or less, the sale shall be made only for the purpose of junking, scrapping, or dismantling such motor vehicle, and the purchaser thereof shall not, under any circumstances, be entitled to a Colorado certificate of title. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804 (2), to the person purchasing such motor vehicle. The bill of sale shall state that the purchaser acquires no right to a certificate of title for such vehicle. The responsible law enforcement agency making the sale shall promptly submit a report of sale, with a copy of the bill of sale, to the department and shall deliver a copy of such report of sale to the purchaser of the motor vehicle. Upon receipt of any report of sale with supporting documents on any sale made pursuant to this subsection (2), the department shall purge the records for such vehicle as

provided in C.R.S. § 42-4-1810(1) (b), and shall not issue a new certificate of title for such vehicle. Any certificate of title issued in violation of this subsection (2) shall be void.

(3) If the appraised value of an abandoned motor vehicle sold pursuant to this section is more than three hundred fifty dollars, the sale may be made for any intended use by the purchaser. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804(2), and an application for a Colorado certificate of title signed by a legally authorized representative of the responsible law enforcement agency conducting the sale, to the person purchasing such motor vehicle. The purchaser of the abandoned motor vehicle shall be entitled to a Colorado certificate of title upon application and proof of compliance with the applicable provisions of the “Certificate of Title Act”, part 1 of Code 6 of this title, within fourteen days after the sale; except that, if such vehicle is less than five years old, including the current year model, and if the department does not provide the name of an owner of record to the law enforcement agency, the purchaser shall apply for a bonded title and the department shall issue such bonded title upon the applicant meeting the qualifications for such title pursuant to rules promulgated by the department.

(4)(a) Transferring the title of a motor vehicle to an operator to satisfy a debt created pursuant to this Part 18 shall not be deemed to be the sale of a motor vehicle.

(b) Nothing in this section requires an operator to be licensed pursuant to Part 1 of article 6 of title 12, C.R.S., for purposes of conducting activities under this Part 18.

1806. Liens upon towed motor vehicles.

(1) Whenever an operator who is registered with the department in accordance with subsection (2) of this section recovers, removes, or stores a motor vehicle upon instructions from any duly authorized law enforcement agency or peace officer who has determined that such motor vehicle is an abandoned motor vehicle, such operator shall have a possessory lien, subject to the provisions of section 1804(6), upon such motor vehicle and its attached accessories or equipment for all fees for recovering, towing, and storage as authorized in section 1809(2)(a). Such lien shall be a first and prior lien on the motor vehicle, and such lien shall be satisfied before all other charges against such motor vehicle.

(2)(a) No operator shall have a possessory lien upon a motor vehicle described in subsection (1) of this section unless said operator is registered with the department. Such registration shall include the following information:

1808. Foreclosure of lien. Any motor vehicle and its attached accessories and equipment or personal property within or attached to such vehicle that are not redeemed by the last known owner of record or lienholder after such owner or lienholder has been sent notice of such lien by the operator or responsible law enforcement agency shall be sold in accordance with the provisions of section 1805.

1809. Proceeds of sale.

(1) If the sale of any motor vehicle, personal property, and its attached accessories or equipment under the provisions of C.R.S. § 42-4-1805, produces an amount less than or equal to the sum of all charges of the operator who has perfected his or her lien, then the operator shall have a valid claim against the owner for the full amount of such charges, less the amount received upon the sale of such motor vehicle. Failure to register such vehicle in accordance with this title shall constitute a waiver of such owner's right to be notified pursuant to this part 18 for the purposes of foreclosure of the lien pursuant to section 1808. Such charges shall be assessed in the manner provided for in paragraph (a) of subsection (2) of this section.

(2) If the sale of any motor vehicle and its attached accessories or equipment under the provisions of section 1805 produces an amount greater than the sum of all charges of the operator who has perfected his or her lien:

1802(1)(d), any balance remaining after payment pursuant to paragraph (b) of this subsection (2) shall be paid to the law enforcement agency that is owed a fee for the court- ordered placement of an immobilization device on the motor vehicle pursuant to section 1105.

(c) Any balance remaining after payment pursuant to paragraphs (b) and (b.5) of this subsection (2) shall be forwarded to the department, and the department may recover from such balance any taxes, fees, and penalties due and payable to it with respect to such motor vehicle.

(d) Any balance remaining after payment pursuant to paragraph (c) of this subsection (2) shall be paid by the department: First, to any lienholder of record as the lienholder's interest may appear upon the records of the department; second, to any owner of record as the owner's interest may so appear; and then to any person submitting proof of such person's interest in such motor vehicle upon the application of such lienholder, owner, or person. If such payments are not requested and made within one hundred twenty days after the sale of the abandoned motor vehicle, the balance shall be transmitted to the state treasurer, who shall credit the same to the highway users tax fund for allocation and expenditure as specified in C.R.S. § 43-4-205(5.5)(e).

(3) The provisions of paragraphs (a) and (b) of subsection (2) of this section shall not apply to a responsible law enforcement agency operating under a towing contract.

1810. Transfer and purge of certificates of title.
